This product contains 25% Chelated minerals.

Mixing & Feeding Directions:

Mix 10 kg of this Breeder Premix with 988 kg of barley and 2 kg of Dyna K to make one tonne of Breeder Ration. Feed this Breeder Ration to beef cows beginning two to three months prior to breeding season at a level to provide 100 grams Breeder Premix per head per day. Also provide good quality forage. Ensure access to clean water at all times. Contact a Nutrition Partners representative for more information.

CAUTION:

1. Directions for use must be carefully followed.
2. Do not use in association with another feed containing supplemental selenium.
3. Do not feed to sheep.

Mix thoroughly in feed. Only use according to instructions. Wear protective clothing when handling.
